

TonerWipe For Laser Printer, Plain Paper Fax & Copiers

PerfectData®

Picks up spills like a magnet!

Regular cleaning of toner residue from the paper path of copiers, laser printers and plain paper faxes help eliminate unwanted toner blotches from printed documents. A special coating actually causes toner, dust and other contamination to become attracted to the wipe. TonerWipe will even pick up toner spilled on carpets. Wipes are reusable until black with toner. Dimensions 17" x 12" each.
