PerfectData Cleaning Paper

Keep your printer, fax & copier running in peak condition!

Cleaning Paper (4 in 1 uses)

Laser & inkjet printers, plain paper fax machines and copiers all operate in the same manner - an enclosed print head and guide path to reproduce copies. These inaccessible parts can trap all kinds of harmful debris resulting in blurred or fuzzy images, ugly ink blotches and unreadable or missing text. This unique Cleaning Paper is specially treated to attract and remove accumulated toner residue, harmful paper dust, debris and other foreign matter from the paper path of your machine. Regular use, especially after changing a toner cartridge or extensive copy output will prolong the life of your equipment and ensure better reproduction of clean, crisp and professional looking documents. This paper is non-toxic and will not leave any residual chemicals inside the equipment.

- Cleaning is as simple as printing a document or sending a fax
- Removes harmful paper dust, debris and other foreign matter from the paper path of your machine

Part No. 105556-1

MSRP: \$10.50 12 sheets per pack

Part No. 105557-1

MSRP: 50 sheets per pack
