

CD Lens Cleaning System

Removes performance impairing debris

Safely removes performance impairing debris (dust, dirt, smoke residue) which can accumulate on the optical lens of a CD player or drive. Easy-to-use "On-Disc" voice instructions explain the cleaning process while precision-engineered lens cleaning brushes wipe dust off the lens. Regular use can restore performance to a lens impaired by contamination.

System consists of:

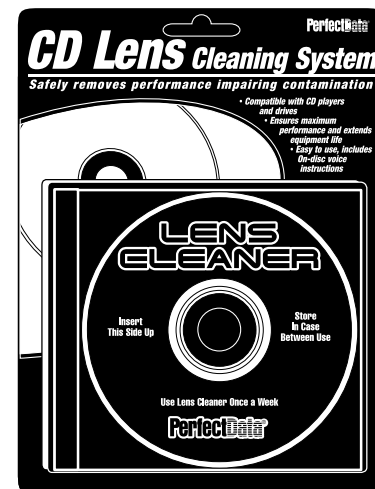

- CD Lens Cleaner
- Storage case
- Instructions for use

Order # 105987-1

Case pack 10 per shipper

CD Lens Cleaning System

- Safely removes performance impairing contamination from lens
- Compatible with all CDs players & drives
- Ensures maximum performance and extends equipment life
